Sandra went home very late last night, after taking her father to the emergency room for diarrhea.

She wake up late this morning but decided to attend the class anyway. Not far from her house, her eye got flat, so she had to patch it.

When she's back on the road, the traffic was surprisingly jammed unlike the usual and she's trapped. That's why she was so minutes late the class this morning.

on Friday 12/09/2018 me and my classmate named wayan were being bullied with our classmates, even though we did not do anything rude to him and we also disturbed him.

Wayan in bulli the garbage spoon that our friend is holding he puts on the head of wayan how I don't want to be angry he is over the edge is rich in men who have no feelings and also have no sense of humanity.

When even a weak woman was killed and at that moment I was angry with her until I cried in class because of her actions and our male friend in her class had gone too far until she promised not to do that again.

But the promise had made for him was broken until now he still remained my daughter and also wayan without stopping and he and his friends often bulli us until now.

Last month, all grade 1 and 2 students at SMA  
1 (Lundari) get 3 days off because third graders are  
undergoing exam. I have no plans to go anywhere  
during the holidays, so I choose to relax at home.

At home I play my favorite ball video game, PES  
2016. I feel very happy because I can play my game  
all day long during the holidays. on school - punctuation  
if I go to school I can only play on Sundays.

I think playing ball games against AI is cha-  
llenging, but it feels more exciting when playing  
with friends. So I decided to invite 2 of my neighbors  
who were also players to go home.

3 years ago, precisely in junior high school I had  
difficulty learning, especially in learning mathematics &  
because all subjects were available only this lesson never  
contained games that made us bored.

how to learn mathematics at that time mostly  
working on practice questions in books even every math  
lesson the teacher often left the book with us to solve questions  
and then came out that made me sad, after completing the  
practice questions the teacher did not check.

The method I want is:

- The first one to play while learning which one
- Both teachers often explain and give examples as explained

Finally after the increase in class I tried to  
understand this lesson more deeply even though the  
teacher only gave examples and questions.

My holiday with my family at  
 Toronipa beach

Last month I and my family went to Toronipa  
 beach for a vacation. We took a tourism bus to go  
 there. We left at 07.00 o'clock in the morning.  
 The trip took about four hours and we arrived  
 at around 11.00 am.

As we arrived there, I walked down to  
 the beach. It was a nice sunny day with a blue  
 sky and a gentle breeze. <sup>Word choice</sup> I saw  
 some seagulls flew around hunting <sup>Capitalization</sup> for fish.  
 The waves there were suitable for swimming  
 swimming but I didn't swim because I couldn't  
 swim and only play with the water on shallow  
 part. We also didn't miss our opportunity here  
 taking some pictures with the background of  
 scenic Toronipa beach.

I before we went home, I looked for some beautiful  
 souvenir at the nearby shop there. eventually, we went  
 home at about 05.00 pm - it was an memorable experience  
 for me with my family
