PTS	Question 2 How do you feel when you conduct an online research project consultation session using Zoom? Tell.	Open coding	Axial Coding	Selective coding	Themes and Interpretation	Major Themes
S1	I feel very happy because this consultation session is very simple and with this online consultation session it is easy for me to understand because I can see firsthand and listen to the feedback given by the lecturer.	<u>very happy</u> <i>because this consultation session is very easy</i> <i>because I can see directly and listen to the feedback given by the lecturer.</i>	<u>Adavantage of using Zoom in online research consultation</u> <i>Reason 1: Easy to understand when doing consultation</i> <i>Reason 2: listen to feedback given directly</i>	<u>Adavantage of using Zoom in online research consultation</u> • Easy to understand when doing consultation • listen to feedback given directly	<u>Adavantage of using Zoom in online research consultation</u> <i>Easy to understand</i> <i>listen to feedback</i> <i>As PTS1 argued, the feeling he felt he felt very happy because Zoom is very simple in conducting consultation sessions. PTS	Question 3 What obstacles did you face while participating in an online research project consultation via Zoom? Tell.	Open coding	Axial Coding	Selective coding	Themes and Interpretation	Major Themes
S1	Alhamdulillah, as long as I followed the online research consultation, I didn't have any problems. This is because, the network is smooth so that during the consultation there is no broken voice.					
S2	The obstacle I face is inadequate network because to access the zoom application, an adequate internet network is needed. Sometimes I can't access zoom because my house is located in a village with minimal network.	<u>Inadequate network</u> <i>because my house is located in a village with minimal network, so I can't access zoom</i>	<u>Disadvantage of using Zoom in online research consltation</u> <i>Reason 1: Unstable internet connection</i>	<u>Disadvantage of using Zoom in online research consultation</u> <i>Unstable internet connection</i>	<u>Disadvantage of using Zoom in online research consultation</u> <i>Unstable internet connection As PTS2 stated that, Disadvantage of using Zoom in online research consltation is Inadequate network so he cannot access zoom</i>	<u>Satiacion of using Zoom in online consultation</u>

S3	<p>I didn't get too much of a problem because in doing the consultation I only attended a few meetings in the consultation session because everyone has a different schedule. It's just in my opinion The only problem I encountered was on the network which was sometimes unstable So that when the lecturer gives feedback, I cannot hear the direction and input from the lecturer concerned.</p>	<p><u>sometimes unstable network</u></p> <p><i>so that when the lecturer gives feedback, I can't hear the direction and input from the lecturer concerned</i></p>	<p><u>Disadvantage of using Zoom in online research consltation</u></p> <p><i>Reason 1: Unstable internet connection</i></p>	<p><u>Disadvantage of using Zoom in online research consltation</u></p> <p><i>Unstable internet connection</i></p>	<p><u>Disadvantage of using Zoom in online research consltation</u></p> <p><i>Unstable internet connection</i></p> <p><i>As PTS3 stated that, Disadvantage of using Zoom in online research consltation is a network that is sometimes unstable so that when the lecturer gives feedback, I cannot hear the direction and input from the lecturer concerned</i></p>	<p><u>Satisfaction of using Zoom in online consultation</u></p>

S2	<p>The benefits that I feel while participating in the research project consultation are: I received very clear feedback according to me.
